

April 13, 2023

To Whom it May Concern,

I am writing today to express my strong support for ThrivePoint High School Nevada, a free public charter school that has plans to open in southern Nevada for the 2024/2025 school year. I was impressed when I learned that the school is taking a unique approach to education, with its student success coaches and workforce preparation programs.

Being an award-winning technology firm in the IT industry for many years, I was happy to find out that ThrivePoint will be prepping these teens for future careers, including those in the IT sector.

ThrivePoint High School's commitment to helping students graduate high school and prepare for the workforce is critical in today's ever-changing job market. By providing students with the skills and support they need to succeed, this school is helping to create a brighter future for our community.

I am very pleased to support this alternative high school as it plans to join CCSD and enter our community.

Sincerely,

David Rounds
