

April 11, 2023

To Whom it May Concern,

As a member of the local business community and healthcare industry, we continually seek opportunities to improve our area for all residents. A recent opportunity that piques our interest is ThrivePoint High School Nevada, a free public charter school proposed to open in our community in the fall of 2024.

ThrivePoint High School's reputation for providing a personalized learning experience for each of its students working in a non-traditional setting would certainly benefit our local students, families, and local community. This organization is working with our community to understand how best to support our students. ThrivePoint High School's approach to student support and community integration represents the school choice many in our area are asking for and would benefit from. Without hesitation, I support this school as a welcome addition to local educational options.

Please accept this letter of support for ThrivePoint High School Nevada to open a school in Las Vegas in 2024. I am confident that with over 25 years of excellence in charter school education, ThrivePoint High School will provide our children with personalized learning opportunities that are challenging and will prepare them for their next big steps in life. Please approve ThrivePoint High School Nevada and give the families in our community a flexible and supportive option for their children.

With gratitude,
