

April 12, 2023

Dear Vincent Medina,

I had the privilege of recently learning about ThrivePoint High School and am truly thrilled to have this school come to Las Vegas. This is a letter of support for you and the team behind this free public charter school.

As you know, we have many students who struggle and are deficient in their credits to graduate. Your proactive approach with helping these students earn their diplomas, while also learning workforce and socio-emotional skills, is very impressive. They will have access to resources, opportunities and great instruction. This will help steer them to a fulfilling future.

As the CEO of a major nonprofit that helps the homeless, I always admire and support those who can bring good things to Las Vegas. Thank you for all your efforts with ThrivePoint High School!

Warm regards,
